ADDNODE GROUP

myPLM

Standardized global workplaces provide
a maximum of flexibility and control.

EXPERIENCE PACKAGED

With myPLM administrators manage CAD applications, environments and licenses. Engineers can work on any task right away - supported by a simple usable start tool.

myPLM simplifies the management of complex CAx applications, environments and product licenses. Multiple customer projects, applications, releases and add-on products can be viewed in a concise structure tree.

User permissions for specific applications, environments and licenses can be set by a role based permission system. myPLM add-ons increase the scope and the ease of use for engineers and administrators. License availability can be shown by the traffic light add-on to avoid application errors caused by used licenses. Users are also able to work offline in a OEM compliant way by using the "Offline Sync" add-on.

myPLM supports customers in keeping their supplier environments updated according to OEM requirements. Specific OEM settings, macros, toolbars, standards and additional software products are provided as pre-configured supplier packages and can easily be integrated into the myPLM environment.

MultiCAD

- Manage different CAD applications like CATIA, NX, 3DEXPERIENCE, CREO
- Integration of several PLM/PDM systems
- License management for different applications
- Integration of CAA's

Standardization

- One tool to manage all CAx applications
- Same working GUI for engineers
- Global management with multi-site synchronization
- Speed up change management process

OEM Suppliers

- Reduced effort for the OEM update process
- Compliant with OEM requirements
- Fast and easy integration into the myPLM environment
- Easy to: check OEM portals, download and test supplier packages

Benefits

- Established in 2005
- Easy to use for both engineers and administrators
- Comfortable functions like license traffic lights or offline sync
- Reduce starting times for CAD applications

About TECHNIA

At TECHNIA, we pave the way for your innovation, creativity and profitability. We combine industry-leading Product Lifecycle Management (PLM) tools with specialist knowledge, so you can enjoy the journey from product concept to implementation.

Our experience makes it possible to keep things simple, personal and accessible so that together we transform your vision into value.

With over 30 years' experience, more than 6000 customers worldwide and world-class knowledge in PLM & Intelligent Engineering, we work together as true partner and extension of your team to create an exceptional PLM experience.

Our 680 people strong team work from 32 locations around the world, across vertical industries, delivering a premium service with a global infrastructure and a local presence. We adopt the latest technology and agile methodologies so, even as technology changes, our relationships last a lifetime.
